

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. **(Currently Amended)** A computer-implemented method for creating a presentation, comprising:

(a) receiving a goal, the goal in a specific task being within a context of being associated with a training objective of a student in a business simulation application, the goal being specified by a business deliverable;

(b) integrating information that guides the student through the business simulation application to accomplish ~~motivates accomplishment of~~ the goal by the student;

(c) evaluating the progress toward the goal and providing feedback that further guides the student to accomplish ~~motivates accomplishment of~~ the goal for use in the presentation; and

(d) adjusting the feedback based on progress of the student toward the goal to help the student complete the a business deliverable.

2. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 1, including evaluating the progress based on a number of help sessions the student accesses.

3. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 2, including evaluating the progress based on work completed by the student.

4. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 1, including evaluating the progress based on a number of changes.

5. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 1, including evaluating the progress based on an amount of rework.

6. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 1, including evaluating the progress based on an aggregate condition of work.

7. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 1, wherein user applications comprise: calendar, electronic mail, spreadsheet, contact list, word processing, task list, stocks and news.

8. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 1, wherein a tone of the feedback is adjusted based on characteristics of the student.

9. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 1, including adjusting an example based on student progress.

10-18. **Cancelled**

19. **(Currently Amended)** The computer-implemented method for creating a presentation, comprising:

(a) presenting information indicative of a goal, the goal in a specific task being within a context of being associated with a training objective of a student in a business simulation application, the goal being specified by a business deliverable;

(b) integrating information that guides the student through the business simulation application to accomplish ~~motivates accomplishment~~ of the goal by the user in a simulated environment goal for use in the presentation; and

(c) monitoring progress toward the goal and providing feedback that further guides the student to accomplish ~~motivates accomplishment~~ of the goal in the simulated environment to help the student complete a the business deliverable.

20. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including simulating management of one or more resources in the simulated environment.

21. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including setting a context for a problem in the simulated environment.

22. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including stimulating management of preventative maintenance in the simulated environment.

23. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including simulating recovery management in the simulated environment.

24. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including simulating evaluative decision making in the simulated environment.

25. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including simulating a conversation in the simulated environment.

26. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including simulating a negotiation in the simulated environment.

27. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including invoking a concept parser in the simulated environment.

28-36. **Cancelled**

37. **(Currently Amended)** The computer-implemented method for creating a presentation, comprising:

(a) receiving indicia representative of a goal into a model, the goal in a specific task being within a context of being associated with a training objective of a plurality of students in a business simulation application, the goal being specified by a business deliverable;

- (b) integrating information that provides assistance with achieving the goal, by the plurality of students, into a tutor for use in the presentation;
- (c) monitoring progress of the plurality of students toward the goal; and
- (d) providing feedback that further assists the plurality of students in accomplishing the goal to help the plurality of students complete the a business deliverable.

38. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 37, including:

- (a) receiving an indicia representative of a plurality of goals into a model;
- (b) integrating information that provides assistance with achieving the plurality of goals into a tutor; and
- (c) monitoring progress of a student toward the goal and providing feedback that assists the student in accomplishing the plurality of goals.

39. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 37, including setting a context for a problem in a simulated environment.

40. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 37, including simulating management of preventative maintenance in a simulated environment.

41. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 37, including simulating recovery management in a simulated environment.

42. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 37, including simulating evaluative decision making in a simulated environment.

43. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 37, including simulating a conversation in a simulated environment.

44. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 37, including simulating a takeover in a simulated environment.

45. **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 37, including simulating a negotiation in a simulated environment.

46-54. **Cancelled**
